COMMENTS: This bill would provide the authority for filing and recording of state tax liens by electronic or magnetic media that is substantially the same as the authority for filing a federal tax lien. The August 23, 2006, amendments made a technical change to the language to specify that the provisions of the bill apply notwithstanding the specific code section that defines digitized electronic documents, rather than any other law. This technical change does not impact the department's operations or programs, and the remainder of the previous analysis of this bill as amended August 10, 2006, still applies.
